

The UICC-led Task Force on Antimicrobial Resistance and Cancer Care

In 2020, the Union for International Cancer Control (UICC) set up a task force of experts – from the infectious disease community and the cancer community. This UICC-led Task Force was established to guide UICC in highlighting current evidence on antimicrobial resistance (AMR), identify research gaps in knowledge of cancer and AMR, share best practices and engage the cancer community to collaborate and mobilize policy change, which includes addressing the threat of AMR for better cancer care outcomes.

Member of Taskforce	Organization
Cary Adams	Union for International Cancer Control
Sonali Johnson	Union for International Cancer Control
Shalini Jayasekar Zürn	Union for International Cancer Control
Manica Balasegaram	The Global Antibiotic Research and Development Partnership
Jon Kirknes	Norwegian Cancer Society
Ulrika Årehed Kågström	Union of International Cancer Control and Swedish Cancer Society
Danielle Rodin	Union of International Cancer Control and Princess Margaret Cancer Centre
Grace Dubois	The NCD Alliance
Zipporah Ali	Kenya Hospices and Palliative Care Association
Mirfin Mpundu	ReAct Africa
Andrea Caputo	ReAct Europe
André Ilbawi	World Health Organization
Benjamin Anderson	World Health Organization
Thomas Joseph	World Health Organization
Diriba Mosissa	World Health Organization
Scott Howard	International Society of Paediatric Oncology
Lillian Sung	International Society of Paediatric Oncology
Lydia Rollinson	Wellcome Trust
Chibuzor Uchea	Wellcome Trust
Yehoda Martei	University of Pennsylvania
Michelle Childs	DnDi
Tim Probart	Global Health Dynamics

Acknowledgements

The publisher and the Union for International Cancer Control (UICC) would like to thank the contributors, the Task Force on Antimicrobial Resistance and Cancer Care, the Editorial Review Panel and the sponsors without whom this Supplement of *AMR Control: The Challenge for the Cancer Community* would not have been possible.

The sponsors of this supplement are:

- Becton, Dickinson and Company (BD)
- The Global Antibiotic Research and Development Partnership (GARDP)
- The International Federation of Pharmaceutical Manufacturers & Associations (IFPMA)
 - The Norwegian Cancer Society
